# dance in the beauty of the world

Life is made up of millions of tiny moments. When I am present with these moments, I notice what brings me joy.

Draw all the little things in life that make your heart sing:

people & animals:

nature:

free time fun:

sports:

art & music:

smells, sights, & sounds:

seasons:

toys & games:

food:

The more I appreciate the life around me,  
the bigger the sun in my heart grows.
